“Charter fees for groups of young and disadvantaged people”

Through the generosity of our supporters, we operate the "Voyage of Discovery Fund" which provides financial assistance to those groups and individuals unable to meet the full charter fee. **Please contact us on 01621 851433 to find out how we can help reduce the fees for your group.**

It is for the group leader to decide how the charter fee is divided and allocated amongst the individuals. The full fee (before any financial assistance from our fund) starts at just **£69 per head per day**. This cost can be reduced through a grant from our "Voyage Of Discovery Fund".

The Fee includes:

- Charter of the vessel for duration booked
- Services of professional crew
- Waterproofs
- Life saving Equipment including life harnesses and life jackets.

The Fee does not include:

- Food - this must be provided by the group for themselves and the crew. You will need to budget approx £6 per head per day.

Funding:

Our *Voyage of Discovery Fund* is operated for the specific purpose of assisting groups with the cost of the voyage fee but is not available to cover any other related costs.

Group leaders are reminded that it is essential to apply to both internal and external funding sources well in advance of their voyage to ensure all costs can be met. Please contact the office for further advice.
